Campfire Scout

So that we continue to get to know and learn each other not only in the formality of the event, but also in keeping with the traditional and ever present Campfire Scout, we remind each delegation that, for this purpose, they must make a typical Representation of their country. It does not matter if it's dancing, singing, or performance, the idea is that in a maximum time of 10 minutes each of the delegations will leave us a symbolic sample of their land.
