TRANSFORMATION OF THE 29th WORLD CONFERENCE INTO AN ON-LINE

Dear members,

Taking into consideration the evolution of the pandemics, the decision had been taken to postpone the 29th World Conference first to August 2021 then to February 2022, hoping that it would be possible to hold the conference in Madrid in good conditions. But we have been informed that the members of many countries would not be allowed to travel to Madrid in the present situation and it is not possible to know whether it would improve in the coming weeks so that travel tickets could be taken in due time. A conference to which many members would not come because they would not be allowed to would be unfair for them.

The World Committee therefore studied various solutions to answer the problem. It eventually took the decision that transforming the conference into an on-line one was the only reasonable solution. This on-line conference would take place during the period which had been chosen for the Madrid conference, but for a shorter time each day

We asked the Host committee to propose to the World Committee how the registered people would be reimbursed. As soon as an agreement is reached between the WCom and the Host Committee you will get the appropriate information.

Details of the on-line conference (duration, agenda, special rules of procedure for an on-line conference, voting etc.) will be circulated in the coming weeks. You will also be informed on the changes to the dates by which you will have to give your propositions (delegates, candidates to WCom, etc.).

Zailillah Mohd Taib
