

News from Europe

Newsletter

Issue 1 / May 2021

Dear all, in this newsletter we would like to share with you some FAQ regarding the Europe Committee...

1. What is the Europe Region Committee?
It's a Committee of 4 members, elected by their own sub-regions.
2. What are the aims of the Europe Region?
You can read on the ISGF Europe Constitution under the article 3, see this [link](#)
3. What is the Europe Region Committee? (please see article 6 of the document above)
4. What is the major "role" of the Europe Region Committee? The Europe Region Committee is basically the liaison between the 4 subregions and its Fellowships. The communication between these parts MUST HAPPEN. Only thru communication from the NSGF's to their Subregion and the Europe Region Committee, can we all know what is happening in our Region/countries/guilds.
5. How can this communication "start"?
The member countries must inform their Subregion representative, the Europe Region Committee, World Bureau of their new national executive team, in order to facilitate the NP and IS contacts.

Feel free to "talk" to us about any questions, doubts, concerns, ideas, suggestions.

"The exchange of information or passing of information, ideas or thought from one person to the other or from one end to the other is communication."
