The Resource Persons were Mrs. Sasrmistha Mazumdar of Mindfully Sorted Pvt. Ltd and Dr. Debanjan Banerjee, Psychiatrist from NIMHANS, Bangalore. Their inputs were very valuable to the participants.

The programme started with Prayer, Welcome by NRI Guild Member, Mrs Mahalakshmi G Richardson from Malaysia. Objectives of the Programme were given. by Ms. D.E. Kharshiing, Int'l Secretary, Ind SGF which was to create awareness on the importance of mental health, remove the stigma and discrimination attached to mental health issues of individuals.

Mrs. Sarmistha Mazumdar, Founder of Mindfully Sorted Pvt. Ltd, Bangalore explained that most people suffering from Mental Health issues do not seek help at the initial stage, but retreat from society for fear of stigma and discrimination. She gave some pointers to understanding Emotional crises, Mind tool techniques to overcome such crises, challenge negative thinking, maintain a gratitude journal, managing emotional triggers, self-care, how to support others and to journey through Grief.

Dr. Debnjan Banerjee in his interaction with Mr. T. Gunaseelan spoke of understanding Mental Health and its meaning. Mr Gunaseelan described mental health as Insanity, which is a superficial meaning countered Dr. Banerjee, explaining that the Mind is an abstract object and hence cannot be seen and easily treated through rationalization. He further suggested we look at the definition given by WHO. To have mental health, we needed Social Connectivity, Physical Touch, Self-Care and Time along with a daily healthy structure with exercise, sleep and diet. To disconnect oneself from social media and instead indulge in discussions/ debates on issues not connected to health issues/misinformation. Dr. Banerjee also informed that grief when unresolved we tend to live our lives and lifestyle revolve around it. Resilience is not a one-day concept, but a day-to-day concept.

Mr. M.A.K. Mecci, President-Executive, Indian SGF said that for good mental health, we needed a well-knit society and a family that is healthy and supportive. We needed to be engaged Within by being active mentally, outside in supporting others and not focusing too much on ourselves and to sometimes be unreachable as through social media, thinking whole which is for all age groups, keeping in touch with relations/family, neighbours etc. and learn to adopt and accept to the situations for emotional resilience. We need to form Healthy Minds Team for each other and learn to uplift and edify one another.

During the Question & Answer session, the question of Suicide as a criminal offense was raised by Mr Gunaseelan. Dr. Banerjee explained that in India there is an Act which repealed IPC 306 (suicide a criminal offence) by Mental Health Care Act, 2017. Some participants

wanted information if there were any free courses on Mental Health and information on these was shared by Mrs. Sarmistha Mazumdar.

Mr. Mecci also introduced a School Counsellor from Indonesia, Ms. Olien who will be able to help counsel in case of need on behalf of our initiative.

The villagers were brought turn by turn by the hired jeep vehicles and were systemetically delivered the items to each one member of a family.The school going young boys and girls were given the attractive school bags.

The villagers narrated their plight of misseries suffered due to damages caused to their houses and belongings by torrential rains and winds.They were still living in makeshift camps.By the grace of nature, the villagers were immune to corona although our members were wearing masks. It was indeed a very satisfying experience to have modestly helped the villagers.No doubt they had also recieved support from the government agencies by way of cash and materials to compensate their losses.
