## NEWSLETTER No. 5

### The last leg before the Gathering

Dear Fellows, there are only fifteen days to go to meeting in Salinas!

We have done anything possible (and still do) to host you as you deserve: taking care that all the details are under control and with the best proposals for social activities, looking after the formal activities are developed smoothly and that the tours meet your expectations.

We are eager to start the Gathering and meeting again with long-time-ago friends and discover new ones!

Do not forget to send the information already requested, in order to have the whole program under control.

### What about the weather?

Good news! The statistically historic climate coincides with the current forecast, so we hope to enjoy a beautiful spring weather during the three days of the Gathering and even during the day after, when we will travel to Punta del Este and surrounding areas. There is only one day announcing a bit of rain ... and we are sure that the forecast is wrong and that we can surely wet our feet in the waters of the Rio de la Plata and walk along the beach of Salinas!
