

Season greetings

The Africa Region Committee wish to extend warm season greetings to all its members and the entire ISGF membership across the globe. Merry Christmas to each and every one of you.

2020 came with its own challenges which was good to some and vice versa. We have endured all the pain it came with but rest assured 2021 will meet us with full of roses. Better years to come so let us all be ready to embrace it. As 2020 about to expire let us welcome 2021 with news idea's towards developing and making this world a better place.

May this festive season erase all the bad memories of 2020 in this world. We pray next year the fellowship both in Africa and the world will see a lot of development. To the committee members thank you for all the hard work and expecting more in 2021.

Merry Christmas.
Africa Regional Committee
